

Catapult International LLC Selects CoSentry To Provide Data Center Services In KC Data Center

Catapult International LLC, one of the fastest growing companies in the Logistics IT Sector, has selected CoSentry to provide collocation and data center services for its innovative technology infrastructure.

Utilizing CoSentry's [Kansas City Data Center](#), Catapult International has partnered with CoSentry, one of the Midwest Regions most secure and reliable data center providers to ensure the availability of the critical shipping information its customers demand.

Doug West, Vice President and General Manager of CoSentry [KC Data Center](#) operations commented, "We are pleased to partner with Catapult International to provide the data center facility and services they require to support their business objectives. The commitment of Catapult to provide shippers, and forwarders their best option for shipping rates within seconds is a commitment we take very seriously as their data center business partner."

David Luttrell, CIO for Catapult International stated, "We are very excited to have CoSentry as a business partner. We rely heavily on them to provide Catapult the resilient and secure data center services that our customers demand. CoSentry was extremely easy to work with and they are a tremendous compliment helping us deliver the web-based Global Freight Pricing Systems that are so critical to our customer's daily operation."

Catapult is able to leverage the state-of-the-art infrastructure of CoSentry to ensure its business systems are located in a stable and "always on, always connected" environment. Mark Dodds, Solutions Consultant with CoSentry stated, that "as Catapult's business continues to grow, CoSentry positions their organization to expand exponentially without the need to invest in building out internal data center resources."

About CoSentry

CoSentry serves as a one source provider of data center, cloud computing and managed technical services. For over 10 years CoSentry has been helping clients create and protect technology platforms to compete in today's ALWAYS ON business environment.

CoSentry has facilities strategically located throughout the central United States. *For more information about CoSentry, please visit their [Cloud Services](#) web site.*
