

FOR RELEASE JULY 1, 2011

**AIRMASS, LLC SELECTS COSENTRY TO HOST ITS
PROPERTYTRAK WEB BASED FACILITIES MANAGEMENT SOFTWARE**

(Kansas City, MO) – AirMass, LLC, based in Lenexa, Kansas has partnered with CoSentry to provide the secure, resilient IT infrastructure necessary to host its web-based PropertyTRAK Software system. PropertyTRAK is a web-based facilities management software system that provides internal staff and vendor work flow efficiencies and safety management tools to improve building operations.

John Massey, CEO of AirMass stated that “CoSentry provides AirMass the ability to leverage the fully redundant, highly secure, and state-of-art IT Infrastructure of CoSentry to deliver the efficiencies of the PropertyTRAK suite of solutions in the high availability environment our customers demand.”

Utilizing CoSentry’s Kansas City Data Center Virtual Server Resources, AirMass has created a highly secure and resilient “Private Cloud” environment for its applications, while positioning itself for rapid growth and scalability. With a national client base revolving around the financial industry, corporate headquarters, healthcare, educational facilities, and museums, a high speed data center environment with a 99.999% up time is mandatory.

Doug West, Vice President and General Manager of CoSentry [KC Data Center](#) operations commented, "We are pleased to partner with AirMass, LLC to provide the data center facility, and services they require to support their business objectives. Ensuring the IT Systems that host the PropertyTRAK modules are always available to AirMass customers is an objective we take very seriously at CoSentry.”

The PropertyTRAK suite includes modules for equipment preventive maintenance, LEED energy compliance, risk management and emergency preparedness. One of the distinct advantages of the PropertyTRAK systems being hosted within the hardened infrastructure of CoSentry is the assurance that critical modules such as Emergency Preparedness are always available. “CoSentry is in the business of ensuring resiliency, and availability of IT Systems and business processes” stated Mark Dodds, Solutions Consultant with CoSentry. “We are excited to provide the services and infrastructure necessary to support AirMass, and to be a part of its business as it continues to grow.”

About CoSentry

CoSentry serves as a one source provider of data center, cloud computing and managed technical services.
