

FOR RELEASE JULY 15, 2011

Flood waters don't stop eShipping LLC as they leverage proactive planning and the CoSentry Kansas City Business Resiliency Center

eShipping LLC, a nationwide transportation technology and logistics service provider has partnered with CoSentry to provide ongoing Business Continuity services. Headquartered in Parkville, Missouri, eShipping enacted plans that use CoSentry's work group recovery capabilities to ensure that their critical business applications and call center operations are always available to their customers.

John Ratigan, CFO/COO for eShipping commented, "CoSentry's capability and commitment to business resiliency and helping ensure our success was obvious from our initial discussion. We are committed to providing first-class customer service to our clients and the ability to transition to the CoSentry work group recovery space allowed us to uphold our commitment to our customers. The ease of doing business with an organization as experienced as CoSentry added an additional layer calmness for our entire team."

eShipping is able to leverage the flexibility of CoSentry's infrastructure to ensure their Inbound Freight, Truckload Brokerage and Back-office team members and it's Transportation Management business applications are located in a secure, stable and compliant environment regardless of business interruptions. CoSentry maintains a network of Business Resiliency centers which includes over 1,200 work group recovery seats and 30,000 square feet of data center space along the I-29 corridor.

Jermaine Jamison, Solutions Consultant with CoSentry added, that "as flood waters continued to rise and uncertainty grows. it is important for clients like eShipping to know their proactive planning and ongoing relationship with CoSentry will mean continued success for their business."

About eShipping, LLC

eShipping is a core technology and logistics service provider to the transportation marketplace. We are a diverse company that provides seamless, one-stop service to customers of outsourced (or third party) logistics services for part, or all, of their supply chain management functions. We specialize in the integrated operation, warehousing and transportation services that can be scaled and customized to each customer's unique needs based on market conditions and delivery service requirement.
